Frontend	React.js, Next.js, Responsive Design, SEO
Backend	Node.js, Express.js, FastAPI, Django, Flask
Databases	PostgreSQL, MySQL, MongoDB, SQLite
DevOps	AWS EC2, Linux, Nginx, PM2, SCP, Deployment
Tools	Git, Postman, Prisma, VS Code, Vercel
Core Skills	REST APIs, Full-Stack Development, API Integration, Debugging, Performance Optimization

EXPERIENCE

Software Development Engineer Intern Apr 2026 - Present
NeoMegaOne LLP (Remote)

- Developed and maintained Infracapitalist using Next.js and FastAPI, adding 100+ infrastructure projects, integrating frontend with backend APIs and PostgreSQL, and deploying on AWS EC2 with Nginx and PM2 while optimizing API calls and data loading from ~500 ms to ~100 ms.
- Contributed to the Naval Armament Depot E-Training Management System for training workflows and reporting.
- Contributed to the Pune Municipal Corporation Garden ticketing platform and admin dashboard for garden management and analytics.
- Developed and enhanced Caaalmly, focusing on frontend development, SEO, performance, and user experience.

Full Stack Developer Intern Feb 2025 - May 2025
VIndia Infrasec Pvt. Ltd., Bengaluru

- Developed responsive web applications and CRM modules using React and Django.
- Designed REST APIs for backend services and collaborated with teams using Git and Agile practices.

PROJECTS

CropCare – AI Crop Disease Detection System | GitHub | Live

- Developed an AI-powered, CNN-based web application using Flask APIs, Supabase, and authentication.

Rustique – MERN Antique Marketplace | GitHub

- Built a full-stack marketplace with authentication, admin verification, REST APIs, and MongoDB integration.

CERTIFICATIONS

MERN Full Stack Development — Luminar Technolab — **AI Internship** — Alpha Innovation
